

Pink Velvet Martini

Servings: 0

Warning: This is a strong drink! Like, really strong. It's meant to be sipped. If it's way too strong for you, just add a little milk or cream.

Ingredients

Vanilla Vodka
Godiva White Chocolate Liqueur
Red food coloring

Directions

Fill shaker with ice. Mix 1 part Vanilla Vodka and 3 parts Godiva White Chocolate liqueur. Add a couple drops of food coloring and shake. Assess coloring and add more food coloring if needed. (I used about 10 drops of food coloring for about two servings.) Pour into martini glass decorated with a pink sugar rim.

Pink Sugar: Pour about 1/4 sugar into a bowl. Mix with one drop food coloring. Use a spoon to mix the coloring into the sugar. It will be a little clumpy but the more you mix it, the more it will even out. Transfer the sugar to a plate. Wet the rim of your glass and dip it in the sugar.
